3. Verification of thesis by the Supervisor

The Supervisor verifies information entered by the student and the attached files (the dissertation file is forwarded by the Supervisor to be scanned by anti-plagiarism software; verification results are made available to the Supervisor):

- Once the data is approved by the Supervisor, the Reviewers can enter their reviews in the APD system.
- If the data entered by the student is incorrect, the Supervisor withdraws the dissertation and sends it back to the student for re-edition. In that case the Student is asked to modify the dissertation data and to delete and upload a new file with the dissertation (Student should retake step 1 and step 2).

The student is automatically informed by e-mail of approval of the thesis or its withdrawal for re-edition.

After the dissertation has been sent by the Supervisor to be verified, the Anti-plagiarism software generates a report.

In accordance with the **Directive No. 98/2016 of the Rector of the University of Wrocław of October 20, 2016** on the introduction of the *Certification procedures and archiving of theses using the Diploma Theses Archive (APD) and anti-plagiarism verification of theses*:

„§ 4. The Dean determines the value of the similarity coefficients of investigated theses which, if exceeded, may indicate a copyright infringement. The value of the similarity coefficients may not exceed:

1/ the similarity coefficient 1 does not exceed 50%;

1/ the similarity coefficient 2 does not exceed 5%;

§ 5. To each verified thesis a report is generated with similarities from the anti-plagiarism system in APD, taking into account the similarity coefficient 1 or 1 and 2. The report is available between 7 and 14 days.

The report from the anti-plagiarism system is made available to the student (Figure 20):

4. Generate control numbers of the thesis.

The student, within the deadline set by the Dean, and after getting the Supervisor's approval of his/her thesis in the APD system, submits to the Dean's Office one copy of the dissertation (printed double-sided with page numbers from the APD system, font up to 12 points, line spacing no wider than 1.5 point) with attachments, bound in a thin cardboard cover with a paper spine in the colour specific for the department as described in the University's Visual Identification System.

In order to download the thesis along with the control numbers, use the **Printable Version** button (Figure 34).

This generates a file with a dissertation that contains control numbers of the pages.
